

JOB DESCRIPTION – PHP DEVELOPER

DEPARTMENT: SOFTWARE DEVELOPMENT

REPORTS TO: DEVELOPMENT MANAGER

JOB TYPE: FULL-TIME

SALARY: R336 000 PER ANNUM

We are looking for a PHP Developer responsible for helping to develop back-end services and the interchange of data between the server and the users. Your primary focus will be the development of all backend logic, definition and maintenance, and ensuring high performance and responsiveness to requests from the front-end. You will also be responsible for integrating the front-end elements into the application. Therefore, a good understanding of front-end technologies is necessary.

REQUIREMENTS:

- Strong knowledge of PHP web frameworks such as Laravel, Yii, Moodle etc depending on your technology stack.
- Understanding the fully synchronous behaviour of PHP.
- Understanding of MVC design patterns.
- Basic understanding of front-end technologies, such as JavaScript, HTML5, and CSS3.
- Knowledge of object-oriented PHP programming.
- Understanding accessibility and security compliance.
- Strong knowledge of the common PHP or web server exploits and their solutions.
- Understanding fundamental design principles behind a scalable application.
- User authentication and authorization between multiple systems, servers, and environments.
- Integration of multiple data sources and databases into one system.
- Familiarity with limitations of PHP as a platform and its workarounds.
- Creating database schemas that represent and support business processes.
- Familiarity with SQL/NoSQL databases and their declarative query languages.
- Proficient understanding of code versioning tools, such as Git.

DUTIES:

- Produce detailed specifications.
- Write clean, well-designed code.
- Troubleshoot, test and maintain the core product software and databases to ensure strong optimization and functionality.

- Contribute in all phases of the development lifecycle.
- Follow industry best practices.
- Develop and deploy new features to facilitate related procedures and tools if necessary.
- Integration of user-facing elements developed by front-end developers.
- Build efficient, testable, and reusable PHP modules.
- Solve complex performance problems and architectural challenges.

Join our vibrant, creative and open-minded team. We invite you to apply by sending your CV or Resume, a motivation letter to us at careers@ttro.com We look forward to meeting you! Only shortlisted candidates will be contacted.
